

## THE CAUSES AND EFFECTS OF THE TRUE SOCIALIST

These are the findings of an interested spectator and citizen of these United States, born and residing in Alaska, who wishes to give you perhaps a different perspective and outlook of the current political and economic movements in our American society today; to establish the methods and motivations behind those in the political arena, so you can see the whys and wherefores of the socialist agenda. To show you the mechanizations of it, how it works in the spiritual and psychological realm, which will lead to an enslaved populace - bound physically to serve the state.

So written herein, will be facts conceived and implemented by the master socialist. Perhaps you will be able to recognize the intricacies used in politics today. I will attempt to bring into focus today's 'MASTER' politicians, their techniques, motivations, and goals for the destruction of freedom in the United States of America.

The notes and quotes you read are taken from "*The Rise and Fall of the Third Reich*" by William Shirer. Shirer first became famous through his account in his *Berlin Diary*, published in 1941, but his greatest achievement was his 1960 book, *The Rise and Fall of the Third Reich*, originally published by Simon & Schuster. This book of well over 1000 pages is still in print, and is a detailed examination of the Third Reich filled with historical information from German archives captured at the end of the war, along with impressions Shirer gained during his days as a correspondent in Berlin.

### Profile of Hitler

#### Oratory - Hitler\*

Quote, "The power which has always started the religious and political avalanches in history has from time immemorial been the magic power of the spoken word, The brood masses of the people can be moved only by the power of speech, all great movements are popular movements, volcanic eruptions of human passions and emotional sentiments, stirred by the cruel goddess of distress, or by the firebrand of the word being hurled among the masses; they are not the lemonade-like outpourings of the literary aesthetes and drawing room heroes."

### Personality Profile - Hess\*\*

Quote, "Where all authority has vanished, only a man of the people can establish authority. The deeper dictator was originally rooted in the brood masses, the better he understands how to treat them psychologically; the less workers will distrust him, the more he will win among the most energetic ranks of the people. He, himself has nothing in common with the masses; like every great man he is all personality. When necessity commands, he does not shrink from bloodshed. Great questions are always solved with bloodshed and iron. In order to reach his goal, he is prepared to trample on his closet friends. The law giver proceeds with hardness. As the need arises, he can trample them (the people) with the boots of a grenadier."

Crises - what every socialist needs is a whore - Hitler\*\*

Quote, "In a few months I obtained what might have otherwise taken decades to understand; the understanding of the pestilential whore; cloaking herself in social virtue and brotherly love." For those who don't have a dictionary; Pestilential is defined as a disease or constant doctrine of failure and death.

\*\*\*The National Socialists achieved their ends through the eradication of certain ideas, traditions, or constitution, even institutions preferably through education or intimidation, if necessary. This would include a disaster or incident of your own will, knowledge or consent to stir people in the direction or action they would not necessarily have gone. If it requires death, destruction or both it does not matter just as long as the end result accomplishes its purpose; which is more control.

Propaganda - The most useful media tool; because it moves the masses!!!!!!

Social Democrats

They know how to create a mass movement, without which any political party is useless. They had learned the art of propaganda among the masses and finally, they knew the value of using what Hitler calls spiritual and physical terror.

Oratory - Hitler\*\*

Quote, "I understood the infamous spiritual terror which this movement exerts, particularly on the bourgeoisie, which is neither morally nor mentally equal to such attacks; at a given sign it unleashes a veritable barrage of lies and slanders against whatever adversary seems most dangerous, until the nerves of the attacked persons break down." This is a tactic based on precise calculation on human weaknesses, and its result will lead to success with almost mathematical certainty. Quote, "I achieved an equal understanding of the importance of physical terror toward the individual and the masses. For while in the ranks of their supporters the victory achieved seems a triumph the justice of their own cause the defeated adversary in most cases despairs of the success of any further resistance."

This review is for you, who are wondering, in effect – awake - to what is going on in today's political realm. I will continue to share my thoughts on current events and how I believe this all ties together.

I am running for Governor in 2010 so check out my article, Socialism In Review and what I believe can be done to redeem America.

Sincerely, Gerald L. Heikes
