

The Key to Life is to Die Young at a Very Old Age

The following doesn't seem possible. This will boggle your mind, I know it did mine!
The year is 1909. One hundred years ago. What a difference a century makes!

Here are some statistics for the Year 1909:

The average life expectancy was 47 years.

Only 14 percent of the homes had a bathtub.

Only 8 percent of the homes had a telephone.

There were only 8,000 cars and only 144 miles of paved roads.

The maximum speed limit in most cities was 10 mph.

The tallest structure in the world was the Eiffel Tower

The average wage in 1909 was 22 cents per hour.

The average worker made between \$200 and \$400 per year.

A competent accountant could expect to earn \$2000 per year,

A dentist \$2,500 per year; a veterinarian between \$1,500 and \$4,000 per year and a mechanical engineer about \$5,000 per year.

More than 95 percent of all births took place at HOME.

Ninety percent of all doctors had NO COLLEGE EDUCATION!

Instead, they attended so-called medical schools, many of which were condemned in the press AND the government as 'substandard.'

Sugar cost four cents a pound. Eggs were fourteen cents a dozen.

Coffee was 15 cents a pound.

Most women only washed their hair once a month and used Borax or egg yolks for shampoo.

Canada passed a law that prohibited poor people from entering into their country for any reason.

Five leading causes of death were:

1. Pneumonia and influenza
2. Tuberculosis
3. Diarrhea
4. Heart disease
5. Stroke

The American flag had 45 stars.

The population of Las Vegas, Nevada, was only 30!

Crossword puzzles, canned beer, and ice tea hadn't been invented yet.

There was no Mother's Day or Father's Day.

Two out of every 10 adults couldn't read or write.

Only 6 percent of all Americans had graduated from high school.

Marijuana, heroin, and morphine were all available over the counter at the local corner drugstores. Back then pharmacists said, "Heroin clears the complexion, gives buoyancy to the mind, regulates the stomach and bowels, and is, in fact, a perfect guardian of health."

Eighteen percent of households had at least one full-time servant.
There were about 230 reported murders in the ENTIRE USA!

I am now going to forward this to someone else without typing it myself. From there, it will be sent to others all over the world - all in a matter of seconds! Try to imagine what it may be like in another 100 years!

IT STAGGERS THE MIND
